

To our valued patients,

Thank you for being a part of our community and contributing to the education of our future medical practitioners. We know that nothing can fully replace the unique service provided by our student clinic, but in compliance with best ethical practice as well as state requirements, our Clinic Director has compiled a list of practitioners and clinics in the Albuquerque area to facilitate the continuation of your care. Many providers on this list are familiar to you as current Clinical Supervisors and/or graduates from our program and may have also been present at our recent “Patient Open House” events. Providers who indicate that they accept and/or bill health insurance have been noted below, please contact those providers in advance to assure that they are paneled with or accepted by your plan.

- **Below is a list of local clinics offering Community Acupuncture (aka. “Community Style”) treatments.** Cost for this type of treatment is typically lower, often a \$15-\$45 sliding scale per treatment. This can provide a safe, effective, low cost option for patients. Intake is performed in a semi-private environment in accordance with HIPPA requirements and patients receive treatment at the same time, with needles usually being placed in distal points and retained while relaxing in a “communal” room.
