

COVID-19 UPDATE: WHAT TO EXPECT FOR YOUR VISIT

We are deeply committed to the health and wellbeing of our patients, faculty, staff, and students. Therefore we have implemented the following policies in response to the COVID-19 pandemic, in order to help ensure everyone's safety in our clinics:

- You must wear a clean, disposable procedure mask over your mouth and nose for the duration of your time on campus. We ask that you provide your own if you can.
- You will be screened before you enter our building, so please plan on arriving 5-10 minutes prior to your appointment time.
- Hand sanitation may be requested of you frequently.
- Our new patient paperwork is available on acupuncturecollege.edu, and we strongly encourage that you print out and complete the paperwork before arrival. (If you do not have access to a computer/printer you may fill it out when you arrive.)
- **Boulder Campus:** Any family member or friend who accompanies you must remain in the patient lounge during your treatment.
Santa Fe Campus: Any family member or friend who accompanies you will be kindly asked to wait outside the building if possible.

Thank you for your part in helping us keep our community safe.
